

## From mountain to sea

Aberdeenshire Council Housing Department has been carrying out a comprehensive review of sheltered housing across the region to assess potential changes to the current model.

The Housing Revenue Account (HRA) is solely responsible for funding services for Aberdeenshire Council tenants. All rent and service charges collected must be used for the benefit of these tenants. The HRA is a ring-fenced budget, meaning it does not receive subsidies from other funding sources.

As part of this review, the Housing Service is also exploring development opportunities to support a long-term investment plan aimed at modernising Sheltered Housing services.

To ensure the local community has the opportunity to discuss potential changes, the Housing department has arranged a public drop-in session for residents of Rothienorman.

This will be an opportunity to speak with Housing staff and explore the options for the Sheltered Housing scheme in your area.

**Date & Time: 10<sup>th</sup> of April 11.15am–12.30pm**

**Location: Rothienorman Hall, Main Street**

If you have any questions or would like more information, including FAQs, please visit the Aberdeenshire Engage page that will be active within the next week.
